

Litchfield Park Preschool Newsletter

April 2021 Issue

News

We officially have seven remaining weeks of school!
Don't forget we have officially opened our 2021-22 school year registration to the public. Please share this exciting news with your family, friends and neighbors!

Teacher's Corner

Celebrate Earth Day

Thursday, April 22, 2021

Our earth should be protected so its precious resources can be available to us for generations. It is never too early to start teaching children the importance of keeping our planet clean and learning how to reduce, reuse, and recycle. With a little guidance and supervision, kids can get creative helping and celebrating the earth by learning how to recycle. Just because preschoolers are small doesn't mean they can't help make a difference. After all, little steps can lead to big changes.

Recycled Paper Home Project

1. Gather your materials. You will need scrap paper, newspaper, a bowl, a blender, water, towels, and a window screen. I also dried the paper by placing it on a plastic cutting board.
2. Start by ripping your scrap paper and newspaper into small pieces. The smaller the better.
3. Add water. Squish, let soften for as long as your child will wait. We didn't wait too long but the blending is easier the squishier you get the "pulp".
4. ADULT ONLY - using a blender, blend the water and paper pulp.
5. Place old towels under your screen.
6. Pop the pulp on it.
7. Press the water out. I just used a dish cloth (smooth cotton not fluffy).
8. Flip onto a cutting board and let dry.
9. Allow to dry for two (2) days.
10. Then, cut them out into your child's favorite shape and add a ribbon.
